

AfB as part of your CDP report

Your Cooperation with AfB in your CDP report

You can write about your Partnership with AfB in your next CDP Climate Change report.

Your cooperation with AfB is relevant for your CDP report. With this guide, we provide instructions and text blocks, which you can use for your report on "CDP's 2017 climate change information request". (<http://bit.ly/2oFa03f>)

CC3. Targets and Initiatives

CC3.3 Did you have emissions reduction initiatives that were active within the reporting year (this can include those in the planning and/or implementation phases)

If yes, complete questions CC3.3a, CC3.3b and CC3.3c:

CC3.3a Please identify the total number of projects at each stage of development, and for those in the implementation stages, the estimated CO_{2e} savings

Stage of development	Number of projects	Total estimated annual CO _{2e} savings in metric tonnes CO _{2e} (only for rows marked *)
Under investigation		
To be implemented*		
Implementation commenced*		
Implemented*	Your cooperation with AfB is an implemented emissions reduction initiative. You can add it to the number of projects in this section.	Please indicate the CO _{2e} savings in metric tonnes as indicated on your "Certificate on social and environmental outcome by AfB" or ask your AfB contact about the information.
Not to be implemented		

CC3.3b For those initiatives implemented in the reporting year, please provide details in the table below

Activity type	Description of activity	Estimated annual CO ₂ e savings (metric tonnes CO ₂ e)	Scope	Voluntary/ Mandatory	Annual monetary savings (unit currency – as specified in CC0.4)	Investment required (unit currency – as specified in CC0.4)	Payback period	Estimated lifetime of the initiative	Comment
Cooperation with AfB gGmbH	We give our used IT Hardware to AfB for refurbishment. CO ₂ e are saved by giving the hardware a second life instead of producing waste.	You can ask your AfB contact about an estimation.	3	Voluntary	-	-	-	On-going / one-time	

CC14. Scope 3 Emissions

CC14.4 Do you engage with any of the elements of your value chain on GHG emissions and climate change strategies? (Tick all that apply)

- Yes, our suppliers
- Yes, our customers
- Yes, other partners in the value chain (tick here)
- No, we do not engage

If “Yes, our customers” or “Yes, other partners in the value chain” is ticked:

CC14.4a Please give details of methods of engagement, your strategy for prioritizing engagements and measures of success

Text block:

Concerning our Scope 3 emissions on “waste generated in operations” we cooperate with AfB gGmbH. We donate IT hardware which we no longer require to them. If possible, the goods are marketed again. CO₂ emissions are saved by prolonging the device’s period of use. This is validated by a study of TU Berlin. AfB confirms the outcome of our partnership every year with the amount of saved CO₂ equivalents, saved energy in kWh and saved metals in iron equivalents.

This Paper was vetted by a peer review process to ensure highest quality possible. A leading mobility provider, an international bank as well as an engineering firm undertook the peer review.
